

HORSE RIDING and NOMADIC STAY

We present below some basic routes that we can arrange for you to take through our nomadic partners who welcome us to their ger (yurt), share with us their nomadic life and hospitality, provide us with horses, local guidance and equipment. These routes can be the basis for our discussion on your trip design. Routes are classified by areas where horse riding takes place: Khovsgol lake, Orkhon valley, Altai tavan bogd, Arkhangai, Zuun gobi and Khovd.

You can ride horses in different places, with transfers by car between the places. To protect horses, we recommend that the duration of one horse-riding session stay less than 10 days.

All these routes can be modified according to your needs and wishes, especially the daily rhythm, which can be changed to fit your preference. A detailed offer adjusted to your arrival dates, number of horse riding days and other details will be sent to you upon request. All these routes are based on an average of 6 hours riding each day. During your horse riding, you can stay one to several days with nomadic families participating in daily activities of nomadic life and caring for horses, cattle, goat, sheep, and processing of milk products.

Horse riding can be part of your jeep tour. Usually we have car support on horse riding days, the car carries luggage and food, we can meet you at lunch and camp places in the evening. In some areas, there are no roads for cars, in this case we will use packhorses, camels or yaks to carry food and camping materials and an additional assistant horseman to handle packhorses.
